

IT'S YOUR EXPERIMENT!

HIGH SCHOOL SCIENCE TEACHER CONFERENCE - OCT 24th, 25th 2008

MICHAEL SMITH LABORATORIES, UNIVERSITY OF BRITISH COLUMBIA
2185 EAST MALL, VANCOUVER, BRITISH COLUMBIA

Are you a creative teacher who experiments with science? Then plan to attend the **2008 Michael Smith Labs Teacher Conference**. During this unique conference, you will: 1) interact with scientists, 2) participate in fun science literacy activities, 3) collaborate with other teachers, and 4) build your own interactive science activities for the classroom.

This two-day conference will be held on Friday & Saturday **October 24-25th, 2008**. You may sign up for one of the days or both.

Friday's program runs from 9am – 4:30pm and connects you with scientists in the fields of environmentalism, sustainability, biodiversity, and biochemistry. You'll also participate in hands-on science activities that you can use in the classroom.

Speakers include Dr. William Rees, Dr. Hadi Dowlatabadi, Dr. Patrick Keeling, and Dr. Brian Ellis. Practical sessions include Michael Smith Lab tours, DIY Leewenhoek microscope, and superconductivity demos.

Saturday's workshop runs from 9am – 3pm and gives you the chance to work with other teachers to build lesson plans inspired by your ideas for interactive science activities.

Attending the 2008 MSL Teacher Conference is easy. Registration is free and a limited number of travel awards are available. The first 40 registrants will also receive a free gift. For registration information, as well as a detailed schedule, please contact Dr. Joanne Fox at joanne@mssl.ubc.ca or see our website:
