

THE INAUGURAL FIRST ANNUAL “MOST EXCEPTIONAL ESCAPADES IN SCIENCE” HIGH SCHOOL CONFERENCE!

9am to 4:30pm, March 12th, 2008

Michael Smith Building (main floor), 2185 East Mall, University of British Columbia

The Michael Smith Laboratories and the UBC Celebrate Research Week are pleased to announce a one day Scientific Conference designed for high school students (Grades 8 to 12). This event will showcase various scientific pursuits, including the opportunity to engage in hands-on activities, as well as interact with some of the most prominent scientists in the world.

We can accommodate up to 90 individuals, of which it is hoped that at least 80% are students. The remaining spots will be made available for interested teachers and/or parents. To enroll, please contact Dr. Joanne Fox at joanne@mssl.ubc.ca with your name, email, school, and what grade you're in. Space will be available on a first come first served basis. We especially encourage the registration of students who are particularly attuned to the sciences.

Additional detail on program and participating scientists can be found at bioteach.ubc.ca
