

# THE SECOND ANNUAL (THIS TIME ALSO DARWINIAN) "MOST EXCEPTIONAL ESCAPADES IN SCIENCE" HIGH SCHOOL CONFERENCE!

9am to 3:30pm, March 10th, 2009

Michael Smith Building (main floor), 2185 East Mall, University of British Columbia

Hmmm... evolution...

The Michael Smith Laboratories and the UBC Celebrate Research Week are pleased to announce a one day Scientific Conference designed for high school students (Grades 8 to 12). This event held on March 10th, 2009 will showcase various **evolution** themed pursuits, including the opportunity to engage in hands-on activities, as well as interact with some prominent academics in the field (this includes an audience with Sir Charles Darwin himself).

We can accommodate up to 90 individuals, of which it is hoped that at least 80% are students. The remaining spots will be made available for interested teachers and/or parents. Registration will open on February 9th. To enroll, please fill the online form with your name, email, school, teacher sponsor and grade level at <http://www.bioteach.ubc.ca/highschool-conference-2009-register/>. Space will be available on a first come first served basis (with a 6 students per school maximum). We especially encourage the registration of students who are particularly attuned to the sciences.

Additional detail on program and biographies of participating academics can be found at: <http://www.bioteach.ubc.ca/highschool-conference-2009>
